ABOUT

My name is JIWURULA TUERSUNTUOHETI (Carullah Tursun), and I am an enthusiastic computer engineer working in the field of Web and Mobile Application Development. I have expertise in different technologies in both Frontend and Backend areas, and I am constantly improving myself with my work. I have worked on web development projects both officially and as a freelancer. I am well-suited for teamwork, and I always assist my colleagues because I love learning. I want to continue developing my career in line with my dreams.

EXPERİENCE

Web Developer

ITU Temag laboratory & | march 2021-august 2021

- I took part in the web developer and design team of Istanbul Technical University Temag laboratory as a part time.

Freelance

Freelance Web developer

- I worked on different web projects during the summer vacation and fall season of 2022. I did freelance projects such as an e-commerce site and a company introduction site.
